

# **Save and share online information: 5 tools for the connected genealogist**

Have you ever told yourself: « I know I've read it somewhere! But where did I read it? Where is this blog post/article? »? This session is for you. Finding online information is an easy process. Being able to find it months later can sound like a complicated process. Together we're going to explore some tools that will help save and share online information.

## **Speaker**

Sophie Boudarel is a French professional genealogist. She is passionate about organization and tools that can help the genealogist to stay on the top of his/her research.

## **Session summary**

During this session, Sophie Boudarel will present you 5 tools to save and share information you'll find online. She'll explain how to create an account and how to take the best advantage of each tools, which are :

- Pocket
- Evernote
- Feedly
- Buffer
- Crowdfire

## **Session materials**

It's fine to come to the class without any resources. Sophie Boudarel will be happy to answer questions even when the session is over or even help you with other tools you might want to try.

## **Goals**

After the session each attendee should have confidence in their ability to start saving and sharing online information.
